

An Epidemic of Absence: A New Way of Understanding Allergies and Autoimmune Diseases

By Moises Velasquez-Manoff

Scribner. Paperback. Book Condition: New. Paperback. 416 pages. Dimensions: 8.3in. x 5.5in. x 1.3in. From asthma to Crohns disease, everyone knows someone who suffers from an allergic or autoimmune disorder. And if it appears that the prevalence of these maladies has increased recently, that's because it has to levels never before seen in human history. These days no fewer than one in five and likely more Americans suffers from one of these ailments. We seem newly, and bafflingly, vulnerable to immune system malfunction. Why? One possibility is that we have systematically cleaned ourselves to illness; this belief challenges deeply entrenched notions about the value of societal hygiene and the harmful nature of microbes. Yet scientists investigating the rampant immune dysfunction in the developed world have inevitably arrived at this conclusion. To address this global epidemic of absence, they must restore the human ecosystem. This groundbreaking book explores the promising but controversial worm therapy: deliberate infection with parasitic worms in development to treat autoimmune disease. It explains why farmers' children so rarely get hay fever, why allergy is less prevalent in former Eastern Bloc countries, and how one cancer-causing bacterium may be good for us. It probes the link between autism and a dysfunctional immune system. It...

Reviews

Complete guide! Its such a good go through. It is rally fascinating throug reading period of time. Its been written in an extremely basic way and is particularly only after i finished reading throug this publication throug which really changed me, change the way i really believe.

-- Mrs. Macy Stehr

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).

-- Prof. Buddy Leuschke
