McTamney, PhD. Emphasizing that it is never too early (or too late) to teach the importance of strong negotiation skills, Dr. McTamney introduces parents to his three-step strategy that helps foster opportunities for growth, conversation, and improved relationships. This approach, which combines cognitive behavioral therapy with a unique form of communication theory, strives to address the child as a whole in the process of behavioral change. By doing so, the child is encouraged to take an active role in developing the interaction skills that are needed to form a healthy and lifelong sense of freedom and accountability. As a result of teaching children to think through the consequences of their behavior, they will be more motivated and equipped to solve problems on their own-meaning an increased sense of responsible independence. And as this sense of independence increases with age, so do your opportunities for turning possible confrontations into successful negotiations. Dr. McTamney s in-depth...
