One who wants to get joy of book reading especially in very less time can go for it. About The Book The Last of the Barons A romance of York and Lancasters long wars, The Last of the Barons was published in 1843, shortly before the death of Bulwers mother, when, on inheriting the Knebworth estates, he assumed the surname of Lytton. The story is an admirably chosen historical subject, and in many respects is worked out with even more than Lyttons usual power and effect. Incident is crowded upon incident; revolutions, rebellions, dethronements follow one another with amazing rapidity--all duly authenticated and elaborated by powerful dialogue. It is thronged with historical material, sufficient, according to one critic, to make at least three novels. The period dealt with, 1467-1471, witnessed the rise of the trading class and the beginning of religious freedom in England. Lytton leans to the Lancastrian cause, with which the fortunes of one of his ancestors were identified, and his view of Warwick is more favourable to the redoubtable king-maker than that of the historians.
