General Accounting Office, 2001 OCLC Number: (OCoLC)54490380 Subject: Radioactive waste disposal in the ground -- Nevada -- Yucca Mountain -- Evaluation. Excerpt: . . . uncertainty in DOEs modeling results. Second, DOE does not appear to have implemented the Boards suggestion, made in two previous letters to DOE, to examine more closely the contribution that each piece of natural and engineered barriers makes to the repositorys overall performance. Third, the Board observed that DOE had not presented a clear and persuasive rationale for going forward with a site recommendation before resolving the important issue of the potential consequences to the repository from volcanic activity. Last, the Board asked that, if the analyses referred to in the letter would not be available before DOEs decision on whether to recommend the site to the President, DOE provide its rationale explaining why the analyses are not important for site recommendation as well as any plans for subsequently conducting the work if the site were recommended and approved for repository development. Recent reports to DOE by the U. S. Geological Survey and...
